SUMMARY

As an **enthusiastic**, **optimistic**, and **versatile** individual, I love the challenges of working within a dynamic or fast-paced working environment. I can adapt quickly, work efficiently and liaise confidently as part of a team or on my own. A full-stack web developer with a specialty in **back-end web development and cybersecurity**. Tools that I use are a creative suite, Laravel, WordPress, Vuejs, jQuery, Bootstrap, Tailwind, Sass, REST and Google API. Experienced with Design pattern especially **MVC**, best practices, code optimization, security, and readability. Proficient at planning, analytical, strategic thinking and hardware, network and software troubleshooting. Projects that I already made are **CRUD**, **SPA**, **CMS**, landing page, games, complete login system, pagination, scholarship monitoring system and **REST API**. A Bachelor of Science in Computer Science Major in **Software Technology** graduate, from Western Mindanao State University
